DESERT AG RESEARCH SYMPOSIUM

SAVE
THE
DATE
01.09.24

Save the date for the Desert Ag Research Symposium on Soil Health. Join us on Tuesday, January 9, 2024 at the Four Points by Sheraton Yuma to learn about work being conducted in desert agricultural soils. There will be opportunities to showcase your research, learn about agriculture in Yuma and other desert regions, and interact with the Yuma Ag industry.

The symposium is linked to a broader effort led by Drs. Stephanie Sliniski and Joey Blankinship to build research teams for the Desert Agriculture Soil Health Initiative (DASHI). Information on the event, including travel and lodging, is coming soon and will be posted at DesertAgSolutions.org.
