

Weather Stations and Other Tools for Optimized Irrigation and Crop Management

Date: August 27, 2025

Time: 8:00 am - 2:00 pm

Location: The University of Arizona Maricopa Agricultural Center

37860 W Smith Enke Rd, Maricopa AZ 85138

Join us for a full-day workshop focused on the tools and strategies that support effective irrigation and crop management using weather data and other tools. Experts from the University of Arizona and leading companies will share insights on weather stations, soil moisture sensors, plant phenotyping, and crop management tools.

Agenda Highlights:

- AZMet and climate tools tailored for Arizona agriculture
- Weather data and sensor calibration for irrigation management
- Latest sensing technologies for plant and soil monitoring
- Soil amendments and health under varying irrigation practices
- Advanced Water Use Monitoring through OpenET

Who Should Attend:

Farmers, consultants, researchers, extension professionals, and students interested in agricultural technology and sustainable water use
